

African whispers

Africa is the hidden piece of the global puzzle, the poli-economic laboratory of strategies, the component of the global capital letters to ensure a minimum balance in matters of planetary strategy, African vocation of being an emergent continent is a bound to find the best tools for the south-North cooperation in order to recover some of the know-how developed by the baby countries that reaches the part of a good redeployment within Africa, which already represent a reflection but not a resolution at least in this transitional world phase. the Contract-Resources of the economic pirates who excelled well over a hundred and fifty years, now, is it time to pull the rug out ? African whispers is a poli-economic book. the hottest !
