

Inherited Danger

The black Jag sped head-on toward Ginger and switched to her lane. The driver was going to ram her. Ginger thought her nightmares were over after she and her boyfriend Houston had explored Garnett Manors long-hidden secret. But now, after visiting a controlling relative she's just discovered she had, things start happening to her. Crazy things, like two cars in one night trying to bump her off a dark stretch of highway into a deep ravine. Clearly, somebody is trying to kill her, but why? Just as Ginger is starting to put the pieces of her life back together, the old, unanswered questions about her past and a potential large inheritance rear their heads. But all is not what it seems. Will Ginger be able to uncover the dark deception in time to save herself, and a dear friend, from their deadly enemies? The exciting, not-to-be-missed sequel to *Watched!* A keep-you-on-the-edge-of-your-seat mystery & detective thriller with a twist of satisfying romance.
