

Koalas and Other Marsupials (What Kind of Animal Is It?)

This book is suitable for ages 6-9. Meet the marsupials! Kids will love learning about koalas, kangaroos, Tasmanian devils, wombats, and other mammals with pouches in this book. Interesting facts and captivating photographs highlight this amazing group of animals, most of which have had to adapt to the harsh Outback of Australia. In this fascinating and easy-to-read book, children will learn about: marsupial pouches and their uses; where marsupials live and how they survive in hot, dry climates; how marsupials eat and move from place to place; and how marsupials care for their joeys.
