

The Last Scion

The Last Scion by Richard Reed is a fast-paced novel set against the backdrop of the mysterious hilltop village of Rennes-le-Chateau in southern France. This Da Vinci Code-style thriller blends fact with fiction as it pieces together the legends of Mary Magdalene fleeing Palestine after the Crucifixion for what was then the Roman province of Gaul. Did the companion of the Lord end her days in France? And if so, what secrets did she take with her to her grave? Reed uncovers the secrets being guarded by the French Cathars as they faced the horrors of genocide in the 13th century, when tens of thousands of innocent Christians were slaughtered by the Popes armies. Solved, too, is the riddle of the enigmatic 19th century priest of Rennes, Berenger Saunier, who turned his church into a shrine dedicated to Mary Magdalene. Why did he suddenly come into such astonishing wealth millions by todays standards? Was he blackmailing the Church over some earth-shattering secret? In a final twist to this page-turner, Reed makes a revelation that could transform the Christian church particularly our ideas of heaven and hell, and the role of women in the church. I am not setting out to undermine the Christian faith far from it, says Reed. I hope that as well as being a gripping read, this novel will challenge peoples preconceptions and make them re-examine their beliefs in a positive way. Christianity has become rigid and dogmatic. It is has moved a long way from Christs teachings of love, compassion, and spiritual self-knowledge; teachings that he shared with his companion and closest disciple, Mary Magdalene. It is time for her story to be told.
